FOR IMMEDIATE RELEASE

**SOLUTION BEACON SELECTED AS THE INTEGRATOR
FOR AMERICREDIT'S RELEASE 11.5.10.2 UPGRADE AND HR IMPLEMENTATION!**

DALLAS, TX January 9, 2007 —Based upon a pervasive presence at OAUG Collaborate 06 in Nashville last April and a strong, varied slate of presentations at the conference, Solution Beacon continued to strengthen its position as a formidable full service Applications and Technology integrator. Although SB had previously provided DBA assistance to AmeriCredit as a subcontractor through O2Works years ago, this presence and quality of presentations at the show pushed us into the running with AmeriCredit's formal RFP process for their Oracle Applications upgrade and additional module implementation.

Solution Beacon made the initial cut based on the proposal, and went onsite to Fort Worth for the final team presentations in November. Based on those meetings and a few proposal revisions, SB was selected late last month as the partner of choice for this \$1 million plus effort.

AmeriCredit is on Release 11.0.3 of the Apps, running Financials and HR. Although AmeriCredit is running HR in 11.0.3, this project is more akin to a new HR implementation, with the team implementing Oracle Advanced Benefits (OAB), Talent Management, and iRecruitment.
