

SOLUTION BEACON COLLABORATE 2010 PRESENTATION SCHEDULE

Sunday, April 18, 2010		
Presentation Title	Presented By	Time Location
Release 12 E-Business Tax Engine <i>While peeling away the fluff, this presentation reviews the Release 12 E-Business Tax Engines new centralized model. The tax engine integrates global control of foreign jurisdictions and specific requirements in an easy to configure application while still retaining localized/domestic controls. See examples of the E-Business Tax Engine at work, module integration, and integration to existing third party tax applications via a user-friendly, self-service interface.</i>	Goetz Schmitz	11:00-11:50am Breakers L
SysAdmin SIG Meeting	Randy Giefer	1:50pm Breakers F
XML Publisher and FSG for Beginners <i>While BI Publisher has provided nearly unlimited formatting capabilities to report developers, use of BI Publisher with FSG can present interesting challenges. This presentation is for users familiar with FSG but who may be beginners with BI Publisher. Topics will include a brief overview of BI Publisher, the two ways to publish FSG reports, the two seeded FSG templates, advantages and disadvantages of each template, what FSG formatting features are still usable, and show some simple changes to each template.</i>	Susan Behn Alyssa Johnson	3:00-3:50pm South Seas H
Monday, April 19, 2010		
Workflow Troubleshooting in Release 12 <i>Oracle provides multiple ways to troubleshoot workflow errors in the latest 11i releases and Release 12 including Oracle Applications Manager, Workflow Administration and Diagnostic Reports. Learn the most effective way for both the functional and technical users to resolve workflow issues and keep the applications running smoothly.</i>	Susan Behn	10:45-11:45am South Seas E
Transitioning From Account Generators to the R12 Subledger Accounting Engine <i>Join us for a step-by-step workshop on moving your customized Account Generation Rules from the Account Generators to the new R12 Subledger Accounting Engine. Discussion will focus on deriving accounts using the Accounting Methods Builder. Moving account generation rules to SLA enables users to maintain their rules through the forms and preserves those rules during future upgrades.</i>	Alyssa Johnson	1:15-2:15pm Lagoon I
Release 12 Procurement - Professional Buyers Work Center <i>Exciting things are happening to the Procurement Suite in Release 12! Contracts, services and sourcing have all come together in a coordinated fashion in the Buyers Workbench. The Buyers Workbench was completely redone using the new Swan Interface to bring the purchasing user out of the forms world and into the 21st century. See the new user interface along with the integration of the Procurement Suite and a review of the related Release 12 new features and functionality.</i>	Eric Cencer	1:15-2:15pm Breakers J
You vs The Bad Guys - The Top 10 List For Securing R12 <i>There are many, many things to consider when securing your organizations crown jewels (data) within the E-Business Suite R12, but which ones do you focus on first? From architecture and technology controls to policies, processes and procedures, this presentation is based on what the author believes are the ten most important things you can do to protect your R12 environment.</i>	Randy Giefer	2:30-3:30pm South Seas G

SOLUTION BEACON COLLABORATE 2010 PRESENTATION SCHEDULE

Tuesday, April 20, 2010		
<p>How to Implement R11 and R12 Goodies: Documents of Record and Checklists <i>A few of the R11/R12 goodies are easy to adopt and create value. Documents of Record, released in HRMS RUP1, allows the user to create new, update existing, view and search Documents of Record™ for a person. New Checklist functionality, released in R12, automates task tracking: Trigger tasks based on eligibility and automate notifications to the task performer. Learn how to streamline your compliance and administrative processes using documents of record and eliminate chasing action items by using checklists.</i></p>	Lisa Laine	8:00-9:00am Breakers C
Wednesday, April 21, 2010		
<p>Release 12 Payments - The Centralization of Payment Processing <i>This presentation will highlight the Oracle Release module. This new module supports both funds disbursement and funds capture. The discussion will focus not only on the benefits of centralization, but will illustrate the new payment factory model and the out-of-the-box support for funds capture. Several new user dashboards that will facilitate more efficient processing will be shown and discussed, as will the new setup form.</i></p>	Alyssa Johnson	8:00-9:00am Breakers K
<p>Securing the E-Business Suite - Expert And Best Practices Panel <i>This "ask the E-Business Suite security experts" panel discussion will bring together some of the industry recognized security experts to facilitate a Question and Answer forum where attendees can ask security related answers and get real world answers for EBS R11i and R12.</i></p>	Randy Giefer	10:30-11:30am Breakers E
<p>Release 12 Technical Introduction –Intermediate <i>This presentation will cover the different technical components and tiers included in the Release 12 Application technology stack. We will outline the technology features that comprise the underlying technology stack along with the layout of the application file system. AutoConfig, cloning, the Oracle Applications Manager (OAM), as well as E-Business Diagnostics will also be covered. Finally, we will cover the iRepository functionality that outlines all inbound and outbound interfaces available in Release 12.</i></p>	Kevin Dahl	10:30-11:30am South Seas G
<p>Planning for Release 12 <i>Join us for this session as we explore what companies can do NOW to plan for a Release 12 upgrade or re-implementation. With 11i10 Premier Support ending November 2010, it is not too early to be drawing your company's roadmap to Release 12. Practical tips will be given to help you stay current, stay competitive, and stay connected.</i></p>	Alyssa Johnson	1:00-2:00pm Reef D
GRC Best Practices Panel	Eric Cencer	Panel
