FOR IMMEDIATE RELEASE

Solution Beacon News Release

Solution Beacon wins Release 12 Upgrade for L-3 Communications, Electron Technologies, Inc. (L-3 ETI)

SEATTLE, WA August 26, 2008 — Solution Beacon has been selected as the primary integrator to assist L-3 ETI's internal project team to upgrade from Release 11.0.3 to Release 12. Solution Beacon's excellent reputation within the Oracle Applications industry, demonstrable experience with Release 12, and a flexible project approach led L-3 to choose Solution Beacon for this project.

Providing functional subject matter expertise, development leadership, and limited DBA support, the Solution Beacon team will begin work in late August, with the bulk of the team coming on board in September for this six month engagement. L-3's E-Business Suite footprint consists of the Financials suite, Projects, and Manufacturing.

Solution Beacon resources will begin the project with workshops designed to introduce the L-3 team to the extensive changes between releases, with development leads working closely with the L-3 team sharing knowledge of the nuances of using Forms and Reports 10g. The effort includes bringing forward numerous custom reports, forms customizations, and interfaces updates for the new release.

About L-3 ETI

Based in Torrance, CA, L-3 Communications Electron Technologies, Inc. (L-3 ETI) is a leading supplier of satellite hardware and electric propulsion systems to the space and defense industries. For more information, visit www.l-3com.com/eti
