FOR IMMEDIATE RELEASE

SOLUTION BEACON JOINS LIFEWAY CHRISTIAN RESOURCES FOR THEIR REMOTE DBA SERVICES

DALLAS, TX October 4, 2007 — LifeWay Christian Resources approached Solution Beacon at COLLABORATE 07 in Las Vegas, NV. We had a few lengthy discussions at our booth as they were gathering information on companies that provided Remote Apps DBA Services.

LifeWay had recently migrated their Oracle Applications to a RAC environment and realized this was now a very complex environment and they needed some help in administering the Database.

LifeWay understood the difference between an Apps DBA and a DBA, and wanted to outsource the administration of the Applications DB in the RAC environment so they could reposition their team on other efforts that related to the core competency of their business. Solution Beacon had spoken and presented multiple papers at COLLABORATE 07 on RAC in an Oracle Applications environment, and was uniquely qualified to meet LifeWay's needs based on our depth of Oracle Applications, Apps DBA, and Applications on RAC knowledge and our experience in this area.

Within the very competitive situation for this contract, our straight forward and honest approach, as well as the Applications on RAC reputation of Solution Beacon had significant impact in winning this business. This contract will bring us our largest Remote DBA Services client and more Apps / RAC business.

We will now go through the final contract and transition stages with LifeWay with the goal to have them on board by November 1st.

Many thanks to the entire Solution Beacon team, as our experience and reputation were key factors in winning this business.
