## OAUG News Release

### **OAUG Announces 2009 Early Participants in Star Partner Program**

*- Program connects participants with OAUG membership -*

**ATLANTA – Nov. 17, 2008** - The Oracle Applications Users Group (OAUG), the world's largest user knowledgebase for Oracle Applications users, announced the list of associate member organizations signed on early as participants in the 2009 OAUG Star Partner Program.

Participants for 2009 include: EIS Technologies, IBM, Noetix, RWD Technologies, Solution Beacon and TUSC as Five-Star partners; Applimation as a Four-Star partner and Excel4Apps, IT Convergence, More4Apps, 02Works and e:Solutions Group as Three-Star partners. In addition, 27 other organizations are participating in the program at the Two-Star *Elite*, Two-Star Demo, Two-Star and Rising-Star levels.

Associate members participating in the OAUG Star Partner Program offer tools and solutions to help the Oracle family of users enhance their productivity, maximize their investment and influence the quality, usability and support of Oracle Applications. Users of Oracle Applications such as Oracle E-Business Suite, PeopleSoft, Hyperion, Siebel, Oracle Retail, Oracle Communications and other acquired Oracle Applications greatly benefit from the interactive networking opportunities and support provided by these members of the program.

The OAUG Star Partner program combines membership, advertising and conference benefits into value-priced packages that deliver benefits to help associate members enhance visibility within the users community. The program connects participating associate members with applications users and serves as a vehicle to gain added exposure and recognition through a variety of outlets, including OAUG communications, conference participation, educational Webinars, customized sponsorships and direct mail campaigns.

“For 2009, we are expecting to have more participating members in the Star Partner Program than ever before,” said Jan Wagner, president of OAUG. “The program acts as a bridge between our members and the program’s participants. It brings our Star Partners’ key messages before the OAUG’s entire user base throughout the year while providing members access to an additional source of solutions and experts, which further enhances the value of OAUG membership.”

Opportunities to participate in the 2009 OAUG Star Partner program are still available. For more information about the program, please visit the OAUG Web site at <http://www.oaug.org/partners/starpartner/index.html>.

### **About Oracle Applications Users Group (OAUG®)**

Founded in 1990, the Oracle Applications Users Group (OAUG) is the world’s largest user knowledgebase for Oracle Applications users. The organization serves as an advocate to Oracle Corp. for companies worldwide, including more than 35 percent of the companies on the Fortune 100 list. The OAUG also serves users of more than 65 Oracle Applications products including Fusion, E-Business Suite, PeopleSoft, Agile, Hyperion, Oracle Retail, Oracle Communications, Siebel and others. The OAUG provides users with education, networking and support via a wide range of activities and forums including conferences, publications, special interest groups, online communities and the Knowledge Factory™, a community-driven knowledge resource for Oracle Applications users. For more information about OAUG, visit the Web site at [oaug.org](http://oaug.org).
