**FOR IMMEDIATE RELEASE**

## Solution Beacon News Release

### ***The Road to Orlando<sup>sm</sup> ... starts in February!***

**SEATTLE, WA January 20, 2009** — Continuing the highly successful offering of regional one-day educational workshops for the seventh year, Solution Beacon and OAUG have once again teamed to deliver *The Road to Orlando<sup>sm</sup>*, a series of one-day educational conferences in multiple locations across the US. This year's events, culminating with additional educational sessions in the OAUG Forum at COLLABORATE 09 in Orlando, FL May 3-7, include:

Cincinnati (in collaboration with Ohio Valley OAUG) – Friday 13 February 2009  
New Jersey (in collaboration with New Jersey OAUG) – Friday 27 February 2009  
Los Angeles (in collaboration with Southwest Region OAUG) – Friday 27 March 2009  
Dallas (in collaboration with South Central OAUG) – Date TBD

The theme for the events is "Maximize your business potential by optimizing Oracle E-Business Suite". Participants are invited to get tips for enhancing functionality to improve Oracle's support of their most critical business needs, ideas on how to plan for upgrades, and guidelines on the best project approach through three separate tracks of sessions focusing on management, functional, and technical topics.

In addition to OAUG and the regional GEO groups, the events are being supported by sponsors including UC4 and FMT Systems Inc.

While the media continues to focus on the challenges in the current economy (rather than recovery!), we are encouraging the Oracle Applications user community to learn how to get a bigger return from a smaller, smarter investment.

Additional information about the events is available on the Solution Beacon website at [www.solutionbeacon.com](http://www.solutionbeacon.com)

#### **About Oracle Applications Users Group (OAUG®)**

Founded in 1990, the Oracle Applications Users Group (OAUG) is the world's largest user knowledgebase for Oracle Applications users. The organization serves as an advocate to Oracle Corp. for companies worldwide, including more than 35 percent of the companies on the Fortune 100 list. The OAUG also serves users of more than 65 Oracle Applications products including Fusion, E-Business Suite, PeopleSoft, Agile, Hyperion, Oracle Retail, Oracle Communications, Siebel and others. The OAUG provides users with education, networking and support via a wide range of activities and forums including conferences, publications, special interest groups, online communities and the Knowledge Factory™, a community-driven knowledge resource for Oracle Applications users. For more information about OAUG, visit the Web site at [www.oaug.org](http://www.oaug.org).

#### **About FMT Systems Inc.**

FMT Systems ([www.fmtsystems.com](http://www.fmtsystems.com)) is a solutions company that delivers complete business integration and process management solutions allowing companies to effectively and efficiently integrate their people with business processes and technology. Our solutions work in unison with your enterprise applications, projects, and people.

## **About UC4**

UC4 Software, Inc. ([www.uc4.com](http://www.uc4.com)) is the leading provider of workload automation solutions that optimize data center processing and ensure that IT systems run faster, more accurately and without interruption. UC4's flagship products, UC4 Applications Manager (formerly AppWorx) and UC4 Operations Manager (formerly UC4:global), automate process scheduling across multiple applications and multiple operating platforms in a distributed IT environment, allowing organizations to exceed service level agreements, speed implementations, lower application lifecycle costs and increase productivity throughout the enterprise. More than 1,500 companies worldwide have successfully enhanced performance and improved efficiency using the UC4 Workload Automation Suite.
