## Solution Beacon Skyrockets To OAUG Five Star Partner

DALLAS--(BUSINESS WIRE)--Solution Beacon has achieved the highest level of partnership with OAUG by being named a Five Star Partner for 2007.

"We believe that a strong relationship with OAUG is vital to our ability to effectively share our knowledge with a wide base of Oracle Applications Users. It was a natural progression for us to become a Five Star Partner. We are honored to have been able to achieve this status within three years," said Alicia Hoekstra, President and CEO of Solution Beacon, LLC.

As Solution Beacon is named a Five Star Partner, we join an elite group of only three participating companies. OAUG limits its Five Star Partners to only six companies. A company vying to become a Five Star Partner for OAUG must first be an Associate member. As part of the Partnership family a company must commit to supporting the OAUG global mission. The OAUG mission is to provide Oracle Applications users the tools required to enhance their own productivity, maximize their investments, and influence the quality, usability and support of all Oracle Applications.

Solution Beacon has demonstrated its desire to share its vast experience and knowledge of the Oracle Applications with the OAUG user community in a multitude of ways. Solution Beacon team members serve on the OAUG Board of Directors, provide leadership on multiple GEO/SIGs, author articles, papers and have created a series of reference books. Solution Beacon resources team regularly present at local, regional, international, and online events, as well as supporting and hosting many of the websites and list servers used by the Oracle Applications community. In 2006-2007, Solution Beacon offered *The Road to Las Vegas<sup>SM</sup> EXTREME*, its fifth year of "road shows", bringing free Release 11i/12 workshops around the country – all leading to the final show in the 2007 series in Las Vegas, Nevada, in April at COLLABORATE 07.
