**FOR IMMEDIATE RELEASE**

**SOLUTION BEACON SUCCESSFULLY COMPLETES  
TT ELECTRONICS 10.7 TO 11.5.10.2 UPGRADE**

DALLAS, TX May 18, 2007- We are pleased to announce that Solution Beacon successfully completed the TT Electronics 10.7 to 11.5.10.2 / 10g upgrade in mid-April 2007. The project team upgraded four plant facilities, implemented purchase requisitions, XML reporting and piloted the quality module during a seven month project. Each resource deserves numerous accolades for working through tough issues (technical, functional and teaming) while maintaining an absolute air of professionalism under the most stressful situations, including a tight timeline.

In addition, the team developed and implemented a number of repeatable project methodologies and templates for Solution Beacon to utilize on future upgrades, most notably Solution Beacon's Train-The-Trainer program.

Each of our elite resource played a significant role in making this project a success.
